## SEE WATER, INC. LAUNCHES NEW SIMPLEX TIME DOSING PANEL

**Riverside, CALIF., Jan. 14, 2022** – See Water, Inc., and industry-leading developer and manufacturer of pump control panels for water and wastewater operations, proudly introduces its new Time Dosing Panel. The Simplex Time Dosing Panel controls a single phase submersible pump where there is a need for scheduled dosing and flow equalization in dewatering, sewage, and wastewater applications.

The panel features a programmable timer with separate variable controls and allows for setting the on and off times from .05 second to 30 hours. It includes integrated electronic control, alarm circuitry and two floats: Pump On and High Liquid. Alarm visible features include a red beacon alarm light. The alarm horn sounds at 85 decibels at 10 feet. The controls are housed in a NEMA 4X rated heavy duty polycarbonate enclosure with stainless steel lockable latches. It also comes with raised terminal blocks for convenient field wiring.

There are several custom adders available including: an alarm flasher, additional cord lengths, Pump Portal® wireless remote communication, or an upgraded stainless steel enclosure.

This panel is UL listed for the United States and Canada and comes standard with a five-year limited warranty.

For more information about See Water's Time Dosing Panel, please visit <https://www.seewaterinc.com/product/single-phase-simplex-time-dosing-td-a> or call 1.888.733.9283.
